Our Expertise Ensures Your Success

CROMSOURCE has developed a stringent methodology to help sponsors identify the highest enrolling countries and sites during the feasibility stage. Our unique Feasibility Plus™ approach is provided to potential clients without obligation at the RFP stage and is the foundation of our ability to offer sponsors a guaranteed timeline, enrolment and budget.

Working closely with our clients, CROMSOURCE identifies geographic areas well known for their prevalence of the targeted indication. All regulatory requirements are reviewed and timelines are developed for each country to ensure the best regulatory strategy.

CROMSOURCE works directly with the most successful sites in recruiting patients. Sites are only considered if they have proven they can deliver a combination of high enrolment, high retention and quality data.
