

**CROMSOURCE was established in Europe more than 25 years ago** when the first clinical operations office was opened in the historical center of Verona, Italy.

Shortly afterwards, the Company expanded into Central and Eastern Europe establishing the first subsidiary in Warsaw, Poland, and so becoming one of the first CROs to be active in this region. CROMSOURCE has grown organically over the years and now has **12 offices and teams located in the strategic hubs of Europe** as well as a strong operational presence across two offices in North America. From its inception, CROMSOURCE was built on a foundation of quality, stability, integrity, and high levels of customer satisfaction – all of which have led to a high rate of repeat business. Together with the long tenure of many of our team members this means that the expertise and experience of more than 25 years of conducting clinical research in Europe is not just ‘on paper’, but is solid and available within our team.

“ CROMSOURCE was established in Europe over 25 years ago ”

CROMSOURCE is an ISO-certified, international contract research organisation providing a comprehensive portfolio of services to the pharmaceutical, biotechnology, and medical device industries.

**CROMSOURCE**  
**European Coverage**

“ Expert regional support in Europe and beyond with a North American perspective ”

With our established global infrastructure, expertise, and capabilities we have become the partner of choice for many small to mid-size US companies planning to conduct clinical research partially or wholly in Europe. Due to our mid-size structure and focus on flexibility, proactivity, and communication, our clients in North America always feel connected and prioritised. When their development plans include Europe, our clients know that the **CROMSOURCE team** will be there at every step, delivering **expert regional support in Europe and beyond with a North American perspective.**

With our established and long lasting presence **in Europe**, we have built a **vast and reliable network of clinical sites.** We are then able to select those that can deliver a combination of high enrolment, high retention, and quality data.

With 27 member states in the European Union, each with its own distinct culture, medical practices, and regulatory approaches, **let our Regulatory Experts help you in navigating the regulatory framework in Europe.**

Whatever the scope of service, CROMSOURCE keeps our clients closely informed about the progress of their project in Europe with the same ‘one team’ approach which lies at the heart of the CROMSOURCE global philosophy.

**CROMSOURCE is a safe bridge across the Atlantic Ocean**, and represents the ideal partner for North American clients including Europe in their clinical development plans.
