

FOR IMMEDIATE RELEASE

OmniComm Systems Signs Five-Year, Multi-Million Dollar TrialMaster EDC Agreement with CROMSOURCE

Fort Lauderdale, FL, April 26, 2016 - OmniComm Systems, Inc. (OmniComm) (OTCQX: OMCM), a global leading provider of clinical data management technology, today announced the signing of a five-year, multi-million dollar agreement with CROMSOURCE, a leading contract research organization (CRO), headquartered in Verona, Italy, with offices throughout Europe and North America. OmniComm's [TrialMaster](#) electronic data capture (EDC) suite will be used for the collection of clinical data during this five-year term in trials spanning all clinical phases and therapeutic areas.

Dr. Oriana Zerbini, founder and CEO of CROMSOURCE, stated "As the global clinical trial services market continues to be increasingly competitive, we want to provide our clients with the most effective technologic tools to ensure their trials are completed efficiently and with the highest level of quality possible. We believe that TrialMaster provides that opportunity, and are pleased to have established this long-term relationship with OmniComm."

TrialMaster was selected by CROMSOURCE for its inherent flexibility, scalability, data quality, and broad capabilities. CROMSOURCE selected TrialMaster's rich and versatile toolset that makes study builds easier to learn and easier to work with, enabling faster study start-up times when compared to other competing technologies.

Additional capabilities that were critical to their decision include:

- TrialMaster [Custom Data Export Utility](#) to create CDISC SDTM submission ready data;
- Ad hoc reporting to create and share dashboards, reports, and analysis;
- [Risk-based monitoring](#) to centrally monitor key risk indicators (KRIs) and identify emerging risks across sites and subjects; and,
- Support for adverse events, especially the ability to generate E2B exports with TrialMaster [SafetyLink](#), a requirement being requested more frequently by CROMSOURCE clients.

"It is an honor to be chosen by a CRO that is so well known for delivering quality and meeting stringent timelines," said Stephen Johnson, president & COO of OmniComm. "TrialMaster's intuitive usability coupled with extensive time-saving features is designed to reduce the time for set-up and promote efficiencies throughout the data collection process. We look forward to working with CROMSOURCE and their clients over the next 5 years!"
